In the contrary, the closest cited prior art of Kim et al (US 6,683,340) discloses a method for forming a memory device comprises the step of removing a portion of the second layer 215/second material while removing a portion of the first layer 214/first material (fig. 6H)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
